"Privacy Cover"

patent pending

Features:

- Eliminates most door and panel gaps.
- Assures personal privacy.
- Self-adhesive for fastener free installation.
- Clear rigid vinyl blends to all partition colors and materials.
- Cut to fit for various partition door installations.
- Flexible vinyl flap adapts to multiple applications. The smoke/opaque color and serrated surface obscures vision.

Part No. 9A1010

Contents:

- 2) 58" pieces per set (poly bagged) / 5 sets per carton

Tools Required:

- Pencil; Measuring tape; Isopropyl rubbing Alcohol; Multi-purpose Snips and Diagonal pliers

Easy Installation:

- For door gap applications (apply to post ONLY)

A) Latch side:

Measure from top of door to top of strike / keeper, then measure from bottom of strike / keeper to bottom of door.

Pre-Cut the "Privacy Cover" with either (Multi-Purpose Snips, Diagonal Pliers or other safe cutting device) to the above measurements and align the cover to the post. Clean up the rough edges with a utility knife or fine grade sandpaper if necessary.

Always place the cover on the side opposite to the direction of the door opening.

Clean surface of post, where the "Privacy Cover" is to be mounted, with (isopropyl) rubbing alcohol. Do Not Use Household Cleaners.

Remove adhesive backing from flat surface of the cover. Use Locator Tab to assist in placement. Press firmly to the post and apply pressure, using an up and down motion to set the adhesive.

Toilet partition doors may be hinged with different style hinges, installation will vary slightly, but cover will always be placed on the post side opposite to the direction of door opening.

B) Hinge Side:

• Pivot Hinge:

Measure from top of door to top of top hinge, and then measure from bottom of the top hinge to top of bottom hinge. Usually it will not be necessary to place "Privacy Cover" below the bottom hinge.

• Surface Hinge:

Measure door from top to the bottom. Hold "Privacy Cover" to post and determine if adhesive surface will make contact with the hinge fastener heads. If this condition exists, merely cut out a wedge of material at the point of contact with the fastener heads to allow the cover to make an unhindered flat contact to the post.

NOTE: Use the same cutting, prepping and application directions as indicated under "Latch Side".

Materials — Five are available

POWDER COATED STEEL

The industry standard. Most economical hybrid epoxy/polyester powder coated finish over galvanized steel with honeycomb core.

PLASTIC LAMINATE

Aesthetic appeal and economy. Pressure laminate smooth surface, resistant to grease and stains.

SOLID PLASTIC

The choice for busy public facilities, high density polyethylene (HDPE) polymer is highly resistant to stains, common acids and cleaning agents, as well as moisture, steam, and corrosion. Will not easily dent or chip.

STAINLESS STEEL

Gleaming beauty provides exceptional durability and modern styling. Available in #4 satin or textured finish.

PHENOLIC - BLACK CORE

Impact, moisture, and corrosion resistant, the surfaces are smooth and easy to clean. Ideal for extreme moisture conditions in showers, pools, and saunas, or when maintenance includes hosing down washrooms.

Styles — Four are available

OVERHEAD BRACED/FLOOR ANCHORED

Units are recommended for heavy traffic and necessary vandalism-proof areas. Most economical. Anodized aluminum goes around top. They do not require any special floor construction, therefore they can be used in old or new buildings.

FLOOR-TO-CEILING ANCHORED

Better than overhead braced for heavy traffic and vandalism-proof areas. Most stable as pilasters are anchored into concrete floor and structural ceiling support.

FLOOR MOUNTED

Absence of top structure prompts the use of these units in low ceiling areas. Gives modern, contemporary appearance. They require a 3" minimum concrete floor construction to secure anchor bolts.

CEILING HUNG

Ceiling Hung is the best choice where minimizing maintenance is of primary importance. They provide a floor area free from obstruction to speed maintenance. However this design requires structural steel supports in the ceiling.

Layout — Examples

In-a-Corner

Free Standing

Between 2 Walls

Alcove

Powder Coated Steel Partitions

Complete Restroom Stalls

- **Very economical and often used.**
- Finish is a hard hybrid epoxy/polyester powder coated finish over rust resistant phosphate treated steel. With inner honeycomb core bonded to the steel with a non-toxic adhesive to ensure solid construction and sound attenuation. Assembled with a continuous roll-formed interlocking crown molding, with corners brazed and ground smooth.
- Doors, panels and urinal screens — 1" thick, 22 gauge steel. Doors and panels are 58" high.
- Pilasters — 1-1/4" thick, 20 gauge steel.
- Hardware — Cam action hinge permits door to remain at desired position when not in use. Hinges, strike and keeper, coat hook, latch, and brackets are chrome plated alloy. Concealed latch assembly allows for emergency access. Pilaster shoes are 304 stainless steel.
- Installation instructions, all mounting hardware and a can of touch up paint are supplied with each order.

Headrail braced solid plastic toilet partitions stocked in the U.S.A. and Canada.

Privacy/Urinal Screens

WALL HUNG

1" thick by 42" high panel. Available in the following widths — 12, 18, 24 and 30". Specify — color and [Part No. 9SWHS-XX](#) (where XX is the screen width).

FLOOR & CEILING BRACED POST & PANEL

1-3/4" square post up to 120" maximum with 58" high panel. Specify — color, [Part No. 9SFCS-XX-Y](#) (where XX is width from the front of the post to the wall, Y = floor-to-ceiling height)*

OVERHEAD BRACED / FLOOR ANCHORED

Pilaster is braced by headrail to wall. Panel is 58" high. Pilaster is 82" high. Specify — color and [Part No. 9S0BS-XX](#) (where XX is width from the front of the pilaster to the wall*).

Floor Anchored

70" high pilaster and 58" high panel. Specify — color and [Part No. 9SFAS-XX](#) (where XX is width from the front of the pilaster to the wall*).

* The overall width of the screen is 2" wider than the width of the panel.

Replacement

Doors

Includes: Hinges and All Hardware
Available for the following door opening widths (actual door size is 3/8" narrower than the opening): 20, 22, 24, 26, 28, 30, 32, 34, 36".
Specify —
• Color
• [Part No. 9TDS-XX](#) (where XX is door opening width)
• Pilaster type — Standard round edge, square edge or mounted on flat wall

Panels

Includes: 4 Brackets
Available in the following widths: 16, 22, 28, 34, 40, 46, 52, 55, 58, 60, 70 and 76".
Actual width is 1/2" less.
Specify —
• Color,
• [Part No. 9TPS-XX](#) (where XX is panel width).
• Reinforcing for grab bars available.

Pilasters

Includes: Brackets & Stainless Steel Shoes
Available in the following widths: 2, 3, 4, 5, 6, 7, 8, 10, 12, 16, 18, 20, 22 and 24".
Specify —
• Color,
• [Part No. 9TLS-XX](#) (where XX is pilaster width)
• Overhead braced for 82" length, floor braced for 70" length, wall hung for 58" high, ceiling hung for 84" length, and floor-to-ceiling for up to 120" maximum length.

Aluminum Headrail

Available in the following lengths: 65" or 83".
And for 1" and 1-1/4" thick pilasters.
Specify —
• [Part No. 9THS-XX-Y](#) (where XX is length and Y is pilaster thickness).
1-1/4" Wide Pilaster, Anti-grip type. Has 1/4" slot for curtain.

Plastic Laminated Partitions

Complete Restroom Stalls

- **Gives a more aesthetic appeal while maintaining economy.**
- Fabricated from 45 pound density, resin impregnated particle board. Plastic laminate is glued to particle board with a non-toxic, water resistant adhesive under high pressure. Components are edge banded prior to face lamination to ensure moisture run-off and vandal resistance. Not recommended for high moisture areas.
- Doors, panels and urinal screens — 1" thick (uses 7/8" particle board)
- Pilasters — 1-1/4" thick (uses 1-1/8" particle board)
- Hardware — Gravity cam-action hinges permit door to remain at desired position when not in use. Hinges, strike and keeper, coat hook, latch and brackets are chromed plated alloy. Door can be lifted to allow emergency access.
- Installation instructions and all mounting hardware are supplied with each order.

Replacement

Doors

Includes: Hinges and All Hardware

Available for the following door opening widths (actual door size is 3/8" narrower than the opening) — 22, 24, 26, 28, 30, 32, 34, and 36"

Specify —

- Color
- **Part No. 9TDL-XX** (where XX is door opening width)

Panels

Includes: 4 Brackets

Available in the following widths: 16, 22, 28, 34, 40, 46, 52, 55, 58, 60, 70 and 76".

Actual width is 1/2" less.

Specify —

- Color,
- **Part No. 9TPL-XX** (where XX is panel width).

Pilasters

Includes: Brackets & Stainless Steel Shoes

Available in the following widths:

3, 4, 5, 6, 7, 8, 10, 12, 16, 18, 20, 22 and 24".

Specify —

- Color,
- **Part No. 9TLL-XX** (where XX is pilaster width)
- Overhead braced for 80" length, wall hung for 55" length and floor-to-ceiling for up to 116" maximum length.

Aluminum Headrail

Available in the following lengths: 65" or 83".

And for 1" and 1-1/4" thick pilasters.

Specify—

- **Part No. 9THL-XX-Y** (where XX is length and Y is pilaster thickness). 1-1/4" Wide Pilaster, Anti-grip type. Has 1/4" slot for curtain.

Privacy/Urinal Screens

WALL HUNG

1" thick by 42" high panel. Available in the following widths — 12, 18, 24 and 30". Specify — color and **Part No. 9SWHL-XX** (where XX is the screen width).

FLOOR & CEILING BRACED POST & PANEL

1-3/4" square post up to 120" maximum with 58" high panel. Specify — color, **Part No. 9SFCL-XX-Y** (where XX is width from the front of the post to the wall, Y = floor-to-ceiling height)*

OVERHEAD BRACED / FLOOR ANCHORED

Pilaster is braced by headrail to wall. Panel is 58" high. Pilaster is 82" high. Specify — color and **Part No. 9SOBL-XX** (where XX is width from the front of the pilaster to the wall*).

Floor Anchored

70" high pilaster and 58" high panel. Specify — color and **Part No. 9SFAL-XX** (where XX is width from the front of the pilaster to the wall)*.

* The overall width of the screen is 2" wider than the width of the panel.

Global Plastic Laminate Colors - ALL Colors Ship 1 Week

* Directional Panel - Pattern on panels over 60" wide will run perpendicular to pattern on doors and pilasters.

Solid Polymer Plastic Partitions

Complete Restroom Stalls

- **Designed for high-traffic public facilities, parks and schools.**
- The high-density polyethylene material has homogenous color throughout each component. Self-lubricating surface resists markings from pens, pencils, etc. Has low maintenance; good durability; water resistant, unaffected by steam or high humidity. Available in overhead braced/floor anchored and floor-to-ceiling anchored only.
- Doors, panels, pilasters and urinal screens — 1" thick, doors and panels are 55" high.
- Hardware — Available in hidden integral hinges or wrap around vault-type hinges. Cam-action hinge permits door to remain at desired position when not in use. Slide latch, striker and keeper, and coat hook are chrome plated alloy. Slide latch assembly allows for emergency access. Standard brackets are 54" long extruded PVC colored to match partitions. Pilaster shoes are molded plastic to match partitions. Stainless steel shoes and full height aluminum brackets are available at no up charge.
- Installation instructions and all mounting hardware are supplied with each order.

Privacy/Urinal Screens

WALL HUNG

1" thick by 42" high panel. Available in the following widths — 12, 18, 24 and 30". Specify — color and [Part No. 9SWHP-XX](#) (where XX is the screen width).

FLOOR & CEILING BRACED POST & PANEL

1-3/4" square post up to 120" maximum with 55" high panel. Specify — color, [Part No. 9SFCP-XX-Y](#) (where XX is width from the front of the post to the wall, Y = floor-to-ceiling height)*

OVERHEAD BRACED / FLOOR ANCHORED

Pilaster is braced by headrail to wall. Panel is 55" high. Pilaster is 82" high. Specify — color and [Part No. 9S0BP-XX](#) (where XX is width from the front of the pilaster to the wall*).

** The overall width of the screen is 2" wider than the width of the panel.*

Available in the following widths: 16, 22, 28, 34, 40, 46, 52, 55, 58, 60, 70 and 76".
Actual width is 1/2" less.

- Specify —
- Color,
 - [Part No. 9TPSS-XX](#) (where XX is panel width).
 - Reinforcing for grab bars available.

Pilasters

Includes: Brackets & Stainless Steel Shoes
Available in the following widths: 2, 3, 4, 5, 6, 7, 8, 10, 12, 16, 18, 20, 22 and 24".

- Specify —
- Color,
 - [Part No. 9TLSS-XX](#) (where XX is pilaster width)
 - Overhead braced for 82" length, floor braced for 70" length, wall hung for 58" high, ceiling hung for 84" length, and floor-to-ceiling for up to 120" maximum length.

Aluminum Headrail

Available in the following lengths: 65" or 83".
And for 1" and 1-1/4" thick pilasters.
Specify —

- [Part No. 9THSS-XX-Y](#) (where XX is length and Y is pilaster thickness). 1-1/4" Wide Pilaster, Anti-grip type. Has 1/4" slot for curtain.

Solid Phenolic Partitions

Complete Restroom Stalls

- **Ideal for extreme moisture conditions in showers, pools and saunas. Surfaces are smooth and easy to clean.**
- Phenolic material is comprised of multiple layers of melamine resin impregnated kraft paper to give a black core and a decorated surface sheet on both faces. All layers are fused together under high pressure. Material of choice where durability and strength are required. Uses stainless steel brackets. Impact and corrosion resistant; does not support bacteria.
- Doors and pilasters — 3/4" thick
- Panels and urinal screens — 1/2" thick
- Hardware — Cam-action hinge permits doors to return to a preset position when not locked. Hinges, strike and keeper are brushed aluminum. Cam-action hinge allows emergency access by lifting door.
- Installation instructions and all mounting hardware are supplied with each order.

Replacement

Doors

Includes: Hinges and All Hardware

Grab Bars

ADA ACCESSIBLE COMPARTMENT REQUIRE:

1-1/4" or 1-1/2" Dia. bars, at least a 42" long on side and at least a 36" long behind the toilet.
(Most popular are 36" and 42" long, 1-1/2" diameter, concealed set screws.)

- In compliance with strength requirements of ADA guidelines.
- Bars are fabricated of a satin finish 18 Gauge type 304 stainless steel tubing.
- Available peened or smooth.
- Mandrell bending process ensures uniform bar diameters.
- Heliarc welding forms a single structural unit.

Specify Part Number, Flange Type, 1-1/4" or 1-1/2" Diameter when ordering

Choose One of 3 Flange Types

EXPOSED MOUNTING

- Flange is 3" diameter, 1/8" thick type 304 stainless steel with satin finish.
- Exposed mounting screw holes are drilled and countersunk.

SNAP FLANGE

- Cover snaps over mounting flange dimples to conceal screws.
- Concealed mounting flange is 3-1/8" O.D. diameter with two screw holes and three locking dimples and is 1/8" thick, type 304 stainless steel.
- Cover is type 304 stainless steel with satin finish, 22 gauge, 3-3/16" diameter.

CONCEALED MOUNTING

- Flange is 3" diameter, 1/2" deep, 11 gauge type 304 stainless steel with satin finish.
- Tenon plate is 13 gauge with slotted screw holes.
- Flange is secured to tenon plate with 3 stainless steel allen head screws.
